Schools  
Association

Binderij 7F  
1158 ZH Amstelveen  
The Netherlands  
+31 20 640 3803

[www.wlsafoundation.org](http://www.wlsafoundation.org)

This Research Group will be developing a new volunteer training programme for WLSA associate school students, focusing initially on Africa with a bi-yearly outreach and service training led by WLSA associate school Westville Boys in Durban, South Africa. It also has a very practical role, effectively operating as an Advisory Board for the training service of WLSA.

We are looking for enthusiastic and willing teachers, middle leaders and senior leaders who:

- can dedicate some time to working collaboratively with others
- can think creatively about new content and ideas for the WLSA Outreach and Service Course
- are doers!

## The Expectations of members of the Curriculum & Training Research Group are:

- to contribute to strategic and practical planning regarding the future of WLSA training for students
- to write or source a minimum of two website news articles per year for the WLSA website
- to write a minimum of 1 article per two years for the WLSA Record if required, on a topic to be agreed
- to attend minimum 2 virtual Research Group meetings per year
- to attend the WLSA annual conference as a presenter or guest, schedule permitting
  - anything else as required!

---

## Benefits for you:

- developing curriculum in an international context
- networking and connecting with interesting people
- being part of something big and meaningful – this is an amazing opportunity to support and contribute to the vision and mission of WLSA in supporting its members and reaching out to new members as the organisation grows.
- Conference fee waived at the annual WLSA summer conference
